

SHADY NASR SAAD ABD-ALATIF

Network Engineer

PROFESSIONAL SUMMARY

Motivated and detail-oriented Network Engineering graduate with a solid foundation in Enterprise Routing, Switching, and Network Security. Proven hands-on experience in designing, configuring, and troubleshooting complex network topologies using GNS3 and Cisco Packet Tracer. Demonstrates a strong academic and practical background through rigorous training programs and professional certification tracks (CCNA & CCNP). Passionate about network optimization, infrastructure design, and continuous technical growth.

ACADEMIC & TECHNICAL PROJECTS

Smart Home and Smart Pharmacy Network Systems

Role: Network Designer and Implementer (Team)
I worked as part of a team to design and deploy an efficient network infrastructure for automated IoT solutions.

I configured network segmentation, optimized IP addressing systems, and established secure and reliable connectivity for seamless data exchange between smart nodes.

Network Penetration Testing Project (Ongoing)

Role: Security Analyst
I conducted vulnerability assessments and traffic analysis using Wireshark for packet monitoring and analysis.

Explored wireless network vulnerabilities and gained exposure to specialized security tools such as Flipper Zero, HackRF One, and Pwnagotchi.

CERTIFICATIONS & PROFESSIONAL TRAINING

CCNA Coursework & Practical Labs	Completed
Knowledge-Based & Practical Labs	
CCNP Enterprise (Routing & Switching)	Currently Studying
Self-Study & Practical Labs	
Network Engineering Trainee	1 Month
Egyptian Electricity Company	
Gained practical exposure to enterprise-level network infrastructure, network monitoring, and real-world live environment operations	
Network Engineering Trainee	1 Month
WAHA Company	
Assisted in daily network operations, basic configuration tasks and foundational networking troubleshooting procedures.

-  [Website](#)
-  El Beheira -Damanhour

EDUCATION

-  **Borg El Arab Technological University**
Bachelor of Technology in Network Engineering
Graduation Year: 2026

SOFT SKILLS

- Problem Solving
- Teamwork & Communication
- Time Management
- Analytical Thinking

TECHNICAL SKILLS

- Routing&Switching
- Infrastructure
- Simulation & Labs
- Security& Analysis
- Hardware Tools

LANGUAGES

- English: Professional Working Proficiency
- Italian:Elementary Proficiency

ADDITIONAL INFORMATION

- Military Status: Postponed
